15<sup>th</sup> September 2017

Dear Parents/ Carers,

**Homework:** Your child will have received a new purple homework book with a choice of activities that will relate to our topic in class. It contains a selection of activities that you can choose to do at home with your child to support the work that we are doing in class. Homework will be sent home on a Friday and collected the following Wednesday.

**Spellings:** A list of 15 spelling will be given out each Friday. 10 of these words will follow a particular rule, which the children will have been learning during the week in class, and 5 will be taken from a list of key words children are expected to be able to spell by the end of year 2. They will then be tested on these words the following Friday in class.

**Reading:** Children are encouraged to read for 10 minutes each night. Once they have finished their book it is very important they are able to discuss what they have read and answer questions about it, using the list of questions that has been given out.

**Maths:** Each half term we set different activities for the children to access on the **Mymaths** website. They will relate to the learning from the half term and should help to consolidate the children's understanding. The challenges can be completed online at [www.mymaths.co.uk](http://www.mymaths.co.uk). Each child has their own login and password, which will be written in their diary. On completing the challenges, results are automatically sent through to Mr and Ferguson and Mrs Tonge, which will help them to assess the progress of each child. Children will also be able to access **TT Rockstars**, using the same username and password as Mymaths, to take part in times tables competitions. In Year 2 children are expected to be secure in their 2x, 3x, 5x and 10x tables and this website will help your child enjoy learning them.

Here is a list of other useful websites which can help your child develop their maths knowledge further.
